

ClearSolv

By Clearsynth

THINK PURITY. THINK *CLEAR*SOLVERE!

Who we are

Clearsynth is a technology-based, research-driven enterprise. Since 2010, we have a proven track record of successful partnerships and our integrated services have made us achieve more than 3000 clients across 58 countries. Our global clientele includes companies from Drug Discovery, Pharma Generic, Bioanalytical labs, Contract Research Organization (CROs) and sectors like Cosmeceuticals, Nutraceuticals, Research Institutions, Pathological labs, Hospitals and other chemically driven industries.

With the rapid growth in our customer science and research, we have branched our manufacturing towards classic organic solvents in their deuterated form. These solvents are specially developed for stimulating the use of right solvent for right application.

THINK PURITY. THINK *CLEAR*SOLVERE!

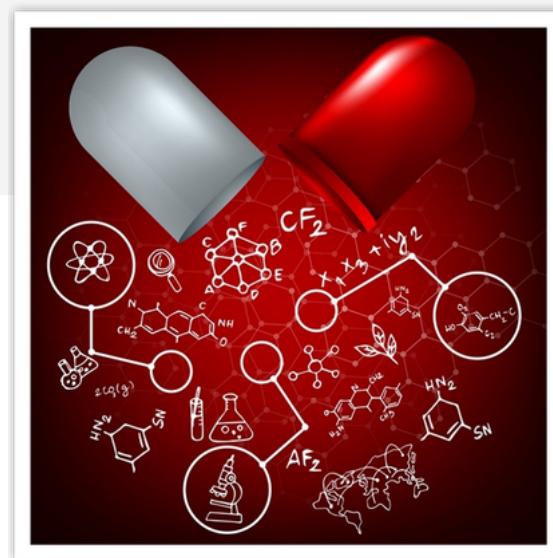

Clearsynth's Solvents - *ClearSolve*[™]

ClearSolve[™] is an emerging solvent division expanded by Clearsynth typically bearing high purity specifications ranging from 99.0% to 99.9% purity. It offers a wide range of products in:

- NMR Solvents
- LC MS Solvents

ClearSolve[™] products are developed in the finest state-of-the-art manufacturing facility. Our objective is to support customer success by delivering high quality isotopically enriched solvents at best prices. Our solvents are preferred across a wide spectrum of research requirements including analysis and industrial applications. These solvents are compliant under the following accreditations:

- ISO 9001:2015
- ISO Guide 34:2009
- ISO/IEC 17025:2005
- ISO 14001:2015
- BS OHSAS 18001:2007

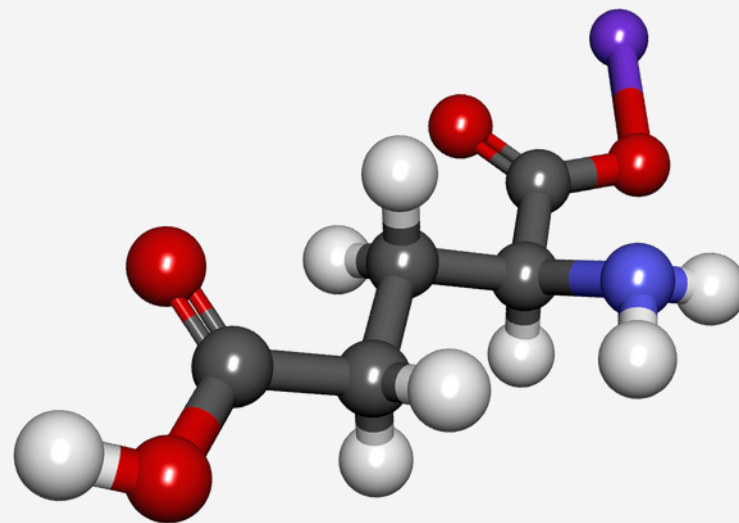

THINK PURITY. THINK *CLEAR*SOLVE!

NMR Solvents

Range of *ClearSolve* Products

Acetone-D6	CAS 666-52-4
Chloroform-D	CAS 865-49-6
DMSO-D6	CAS 2206-27-1
Ethanol-OD	CAS 925-93-9
Methanol D4	CAS 1455-13-6
O-Xylene-D10	CAS 56004-61-6
P-Xylene-D10	CAS 41051-88-1
Tert-Butanol-D10	CAS 53001-22-2
Toluene-D8	CAS 2037-26-5

Features:

- Enrichment ≥ 99.5 atom% D
- Robust manufacturing processes
- Easy and safe handling due to decompressed sealed bottles
- Wide Range of Packing - Ampoules to Bottles
- Better shelf life as packed under inert gas
- Prompt delivery.

THINK PURITY. THINK *CLEAR SOLVERE*!

LC-MS Solvents

Range of *ClearSolve* Products

Acetone	CAS 67-64-1
Acetonitrile	CAS 75-05-8
Chloroform	CAS 67-66-3
Dimethylformamide	CAS 68-12-2
Methanol	CAS 67-56-1
Water	CAS 7732-18-5

Features:

- Best for routine quality chromatography
- $\geq 99.5\%$ Purity of solvents
- Low cation levels for reduced background noise
- Suitable for HPLC, UHPLC and MS performance
- Pre-filtered through $0.1\ \mu\text{m}$ filters.
- Validated by using Spectrometers
- Batch to Batch Consistency
- Improved resolution & sensitivity
